

symmetry

A balanced approach to hand hygiene

Introducing **Symmetry**, your solution to clean and healthy hands, offering a complete line of soaps, lotions, hand sanitizers, and dispensers for all markets including healthcare, schools and government, retail, food service, manufacturing, automotive, and many more. **Symmetry** is an innovative hand soap line created by highly qualified formulation chemists through extensive research, development, and quality control. Handwashing is the single most important procedure to stop the spread of germs. It keeps you from transferring germs to other areas of your body, other people, and the environment. Wash your hands with **Symmetry** soap and help stop germs. **Symmetry** provides the products, education, and training needed for optimal hand health.

General Purpose Hand Soap

Pink Lotion Soap

Luxurious pearlescence pink lotion soap with a mild fragrance, producing a rich creamy lather that is ideal for general purpose handwashing in public facilities, schools, and general restroom use.

Pink Foaming Handwash

Gentle pink foaming handwash has a mild floral fragrance and is ideal for frequent use. Rich pre-lather for a pleasing experience. For use in public facilities, schools, and general restroom use.

Green Certified Hand Soap

Green Certified Lotion Soap*

Lotion hand cleaner that is biodegradable and free of all dyes. Certified by Green Seal meeting the GS41 standard.

Green Certified Foaming Handwash*

Luxurious foaming hand cleaner that is biodegradable and free of all dyes. Certified by Green Seal meeting the GS41 standard. **Unscented version also available.*

Green Seal is an independent non-profit organization that promotes the manufacture, purchase, and use of environmentally responsible products and services. To earn Green Seal certification, a product must meet specific Green Seal environmental standards through evaluation, testing, and an actual plant visit. The **Symmetry** line offers environmentally preferable hand soaps that are Green Seal certified.

*This product meets the Green Seal™ environmental standard for institutional hand cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

Customization / Adaptability

One of the most unique features of the **Symmetry** soap dispenser is that you have the option of customization - the dispenser allows for liquid and foam soap. Whether you like using liquid or foam soap at your facility, it is as simple as changing a soap bag. Should your facility be using liquid soap and would like to try foam soap, simply load the foam soap bag when it is time for a change-out. If you would like to switch back to liquid soap, load the liquid soap bag into your **Symmetry** dispenser. If you prefer, you have the ability to use liquid soap in some areas of your facility and foam soap in other areas.
