& Your Healthcare Facility

At least one-third of all healthcare related infections can be prevented through proper handwashing.

— Center for Disease Control and Prevention

■ A Complete Hand Hygiene Program

The Symmetry Hand Hygiene Program offers a full line of cost effective soaps, lotions, hand sanitizers, and dispensers complete with education and training for your healthcare facility. It is extremely important to keep patients and staff healthy at your facility.

“Handwashing is the single most important means of preventing the spread of infection.” — CDC

Reduced germs equals reduced infection. Do your part to help promote the number one defense against the spread of germs and infection, and begin using the Symmetry Hand Hygiene Program in your facility today.

Components of the Hand Hygiene Program:

The Symmetry Dispenser & its Unique Features

- ■ ■ Each Symmetry dispenser accepts liquid or foam products. This eliminates the need for multiple dispensers.

“Repair-In-Place” Technology

In the event that repairs are needed, covers, sight windows or levers may be replaced without taking down the entire dispenser.

Flexible Packaging

Symmetry flexible soap bags offer environmental benefits by taking up less space in landfills. They also come with pumps attached to ensure no contamination. Receive great end-use-cost with a 99% evacuation rate.

Patented “No-Drip” System

The patented “No-Drip” bellows at the base of each foam pump ensures a clean countertop after every push.
